Date	9–10 March 2027
Venue	Quality Hotel View, Hyllie, Hyllie Stationsväg 29, 215 32 Malmö
Target group	Doctors and nurses who treat patients with epilepsy and are new to VNS
Language	Swedish
Participants	At most 20
Contact	events@gonorthmedical.com
Programme and registration	gonorthmedical.com/events/vns-educational-workshop-2027-03

Purpose and content

A basic course in VNS treatment, from theory to practice. After the course the participant should be able to explain VNS to patients and colleagues, select the right patients, and titrate and dose safely.

- The basics: what VNS is and how the therapy is implanted
- Titration and dosing
- MRI examination of patients with VNS
- Hands-on workshop with the programmer
- Patient selection
- Work on patient cases

Time required

Two days. Day 1: lunch at 11:00, course 12:00–18:00, joint dinner at 19:00. Day 2: course 08:00–16:00 including lunch.

Who pays for what

Cost	Paid by
Course fee, 5 000 SEK per participant. Covers participation, course material, and lunches and coffee on both days.	The employer, against invoice
Travel to and from the course.	The employer or the participant
Hotel. We can book the room if the participant wishes, and then invoice the full actual cost.	The employer or the participant
A joint dinner on the evening of day 1, a modest meal in connection with the course.	Go North Medical
Venue, speakers and the other costs of running the course, beyond what the course fee covers.	Go North Medical

Participants receive no fee or other compensation. We pay for no travel, no accommodation and no social activities, and accompanying persons cannot take part.

Product information

The course is about VNS Therapy, a CE-marked medical device for the treatment of drug-resistant epilepsy. Go North Medical is the manufacturer's authorised agent in Sweden, Norway, Denmark and Iceland. Product information and hands-on training with the product are part of the programme.

The rules we follow

Sweden. The course is a meeting arranged by industry under the Agreement on cooperation rules for publicly funded healthcare, the pharmaceutical industry, the medical technology industry and the laboratory technology industry (Överenskommelse om samverkansregler, version 3.0, in force from 1 February 2026). We follow it: the scientific and professional programme is the whole purpose of the course, we pay for no travel, accommodation or registration fees, meals are modest, and we pay for no social activities. Under the rules, each participant is responsible for obtaining the employer's approval.

Venue. Participants come from several Nordic countries. That is why the course is held in one place that everyone can travel to, not at the participant's own workplace.

Norway and Denmark. The same split of costs applies to participants from Norway and Denmark, and we follow the rules on cooperation between suppliers and the health service that apply in each country. Healthcare professionals working in Denmark may have to notify the Danish Medicines Agency (Lægemiddelstyrelsen) when a medical device company pays a direct cost of a professional activity abroad. The dinner above may be such a cost.

The EU Medical Devices Regulation (MDR, 2017/745). We operate in accordance with the regulation. What we teach about the product follows the manufacturer's instructions for use and approved labelling, and we make no claims about the product beyond its intended purpose (Article 7).

Personal data. The participant's details are used to administer the course, as set out in our privacy notice at gonorthmedical.com/privacy.

This summary describes the course as planned. Details of the programme may change. Last changed 2026-11-19.
